Opportunities for Students to Succeed

BASEF

Made Possible By:

- 70 general funding sponsors and donors
- 46 special awards donors
- 299 judges
- 30 volunteers

Bay Area Science and Engineering Fair April/May 2021

The effects of the pandemic had a significant affect on the 2021 fair. In 2020 students had prepared projects for school and board fairs and so were ready for BASEF. A total of 220 of the 323 registered projects converted their projects into the online format and participated in BASEF. However, in 2021 COVID restrictions meant that there were no school or board fairs and we see the results of this in the 2021 participation levels.

161 Students showcased 133 projects

9 gold, 30 silver, 31 bronze merit awards 85 scholarships
188 special awards 17 projects (23 students) advanced to senior fairs

Awards worth over \$150,000

Projects advanced to senior fairs

Canada Wide Science Fair

BASEF selects top projects from any grade to represent our region at national level. This year 17 competitors brought home 19 awards.

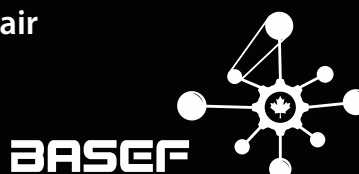

Regeneron International Science and Engineering Fair

BASEF selects the top five high school projects to represent our region at the international level. Together they brought home 11 awards.

Join us for our 62nd fair!

March – April, 2022
